INUVIALUIT
REGIONAL CORPORATION

Research Data Specialist

Inuvik, NT— Full-Time— (2) Two year term

Are you interested in Advancing Arctic Research?

The Inuvialuit Regional Corporation (IRC) invites applications for the position of a Research Data Specialist based in Inuvik, NT. Under the guidance of the Director of Innovation, Science & Climate Change, the Research Data Specialist is responsible for ensuring efficient/effective use of data, allowing the Inuvialuit Regional Corporation to better realize the benefits of research and information sciences in the Inuvialuit Settlement Region. (ISR).

Essential Job Functions:

- Facilitate sustained and timely access to data through the enhancement of useful, usable, and interoperable systems (i.e Inuvialuit Indicators, ARDI, ISRP).
- Establish, adopt and/or implement standards to support interoperable data cataloguing, discovery and utilization
- Enhance existing internal research data infrastructure to include multi-relational statistical/spatial data which follows an interoperable and service-oriented workflow
- Provide Inuvialuit project management, leadership and support for the Canadian Foundation for Innovation project 'Advancing Arctic Research through Connected Data Infrastructure'

Education, Experience and Knowledge:

- Master of Arts or Science with a minimum of 2 years of experience
- Bachelor of Arts or Science in a related field and minimum of 7 years related work experience
- 2 years experience in project planning, management and proposal writing
- Experience in facilitating/conducting training sessions on complex software or data processing
- Experience in developing data science projects with the ability to create both long and short-term plans based on multi-stakeholder input
- Knowledge of the Inuvialuit Settlement Region and the Inuvialuit Final Agreement

Position is open until filled **Priority consideration will be given to beneficiaries of the Inuvialuit Final Agreement**
